

## DEPARTMENT OF FINANCE BILL ANALYSIS

**AMENDMENT DATE:** April 10, 2008  
**POSITION:** No position  
**SPONSOR:** California Farm Bureau Federation

**BILL NUMBER:** AB 2824  
**AUTHOR:** T. Berryhill

### **BILL SUMMARY:** Bovine Animals: Exposed Nonreacting Animals: Slaughter

This bill would delete existing code related to indemnity payments for animals slaughtered due to Brucellosis control and recast the provisions so that owners of slaughtered cattle may receive part or all of the proceeds from the sale of the salvage of the animal or payments from the United States Department of Agriculture (USDA) if indemnity funds are available. This bill would also delete existing code related to the valuation of slaughtered non-reacting animals and recast the provisions so that there is no longer an indemnity cap specified in code.

### **FISCAL SUMMARY**

2The CDFA indicates that this bill would have a minimal workload impact on their department. The USDA would reimburse the CDFA for any costs that are incurred outside of their existing regulatory activities. The full fiscal burden of this bill would be placed on the USDA.
